TEST REPORT

Date of Report : 02.02.2016
Product Name : **Super Auskelp**
Manufacturer/Marketer : M/s Sunland Project Pvt. Ltd
Test Performed : Effect on yield and tainting test
Treatment tested : 3 Nos.
@1.5 L in 1st, 500ml in 2nd & 3rd round of spray mixed in 200 L water
@1.0 L in 1st, 500ml in 2nd & 3rd round of spray mixed in 200 L water
@500ml in each of 1st, 2nd & 3rd round of spray mixed in 200 L water
Spray machine used : High volume Bakpak hand operated sprayer
Design of trial : RBD
Type of pruning : Unprune
Spray round : Three rounds sprayed at an interval of 30 days in 2015
No. of plucking round : 16
Phytotoxicity : Nil
Taint test : Free

The above product was tested at Tocklai for its effectiveness as growth promoter in Tea plantation of North East India.

Result :

Among the treatment tried, Super Auskelp @ 500ml in 200L of water and sprayed for three rounds produced 18.3 percent and 6.7 percent more yield compared to control(only water) and Urea+Zinc Sulphate (@ One percent each), respectively. Tea samples manufactured after spray were found free from any taint.
