

Urea:

Fco Specifications:

Moisture per cent by weight (Maximum)	– 1%
Total Nitrogen per cent by weight (Minimum)	- 46%
Biuret percent by weight (Maximum)	– 1.5%
Particle Size – Minimum 80 percent of the material shall be retained between 1 mm and 2.8 mm IS sieve.	

Traits:

- Urea is a Synthetic organic compound containing 46% Nitrogen in Amide form.
- Available in the form of white solid prills free flowing for easy application.
- Being Hygroscopic, urea is packed in moisture proof High Density Poly Ethylene bags.
- Less acidifying than many other nitrogenous fertilizers, Hence most suited for high pH soils.
- Increase Quality of the soil and yield.
- Helps in bloom growth.
- High concentration of nutrients makes packing, storage and transport cost cheaper.

Recommendation:

- Can be applied to soil. Also suitable in solution form as spray.
- Application is recommended in split doses for better use efficiency.

Supply: Bulk Neutral Bags
